MOTORCOACH OWNER SUPPORT & MANAGEMENT

LiTRV is Luxury in Travel. Our team has decades of experience working with owners of all luxury motorcoaches, including Prevost. We are a full-service firm, providing custom hospitality services, travel management, account management, rental representation and client relations.

Our goal is to provide a positive motorcoach experience for buyers, sellers, owners, and short-term guests.

Coach Owner Advocacy

Consider LiTRV to be a trusted partner with your best interests in mind. As an owner of a luxury motorcoach, you have full advocacy of coach experts with a vast network of resources and 24/7 support. Upgrade decisions, rental, purchase and sale opportunities, storage and routine maintenance are all made easier when you have someone to recommend and guide you through the process. And because our team provides bespoke services, we are always attentive to your needs and accessible when you need to reach us.

Care & Maintenance

Proper care and maintenance of a luxury motorcoach takes time and expertise. Advocates at LiTRV understand the importance of frequent and routine attention to keep a coach road ready while retaining maximum value of your asset. The LiTRV Luxury Motorcoach Care & Maintenance Program puts our team in control of every detail so that you can have confidence that your coach will be ready when you need it and of maximum value when you decide to sell or upgrade. LiTRV can take on the day-to-day responsibilities, assist you monthly, or step up for on demand requests.

Transport & Storage

Our team can transport your luxury motorcoach wherever you want and set it up however you need it. LiTRV coach managers are trusted, experienced, vetted, and highly qualified to drive and operate a variety of luxury motorcoaches. We provide you with the ability to maximize use for planned as well as last-minute needs. Our LiTRV team also works with luxury motorcoach resorts, public and private storage providers, and facilities throughout the U.S. and a limited Canadian Province/regions for parking and storage needs.

Rental Representation

Have you considered offsetting the cost of your luxury motorcoach by renting it out? RV-sharing has become very popular and offers coach owners an opportunity to generate income when they are not using their coach. Some coach owners are unsure of how to start, and others are not trusting of allowing others to use their coach. LiTRV offers an all-inclusive and safe way for owners to benefit from the income without most of the work involved while their coach is monitored throughout the process.

The RV sharing concepts have evolved and LiTRV has adapted to a new consumer and client looking to create and find new experiences. LiTRV full concierge-type services provide private drivers for the ultimate motorcoach experience. We oversee event use with on-site managers, and curate luxury leisure travel with professional RV travel management.
