

TAKE THE ULTIMATE TEST DRIVE

Before Purchasing a New Luxury Motorcoach

Whether you are new to the luxury RV lifestyle or are upgrading to a new motorcoach, LiTRV's "Rent Before You Buy" service allows you to charter a luxury motorcoach for a few days or more, travel in it with family or friends to a destination of your choice, and most importantly, get hands-on experience from LiTRV's professional driver and coach expert. There's no sales pressure as LiTRV does not represent any manufacturers or dealers. Become an informed buyer while also enjoying a luxury mini vacation.

Learn the Ins & Outs of a Luxury Motorcoach with a Professional Driver

Our professional drivers can help you learn how to navigate twists and turns on mountain roads and city streets while adjusting to diverse weather and road conditions. They will also focus on some of the basics of luxury coach ownership, provide valuable tips-and-trick while helping orient you to the on-board systems and guide you through scenarios, such as:

- ☑ Loading up the motorcoach at your home prior to your trip.
- ☑ Getting in and out of a gas station.
- ☑ Setting up at a luxury RV resort, including how to find your premier site, how to level the motorcoach on the ground, how to hook up water, the TV and other details.
- ☑ Checking apps to determine weather, construction, and traffic conditions.

Count on LiTRV to Guide You Through Your Options

Just like a luxury car, a luxury motorcoach comes in a variety of sizes and configurations. Our LiTRV team has more than a decade of experience renting a wide variety of luxury motorcoaches to hundreds of guests, and we have seen and experienced traveling in almost every type of configuration.

LiTRV is not affiliated with any manufacturer, but we have great relationships with most of them. You can count on our LiTRV professional driver to give you the “tools” or information you need to help you make the best educated purchasing decision.

Throughout your journey, our driver may point out things to consider, such as:

- ✔ What is the best layout for you and your family?
- ✔ Do you want or need two or four slides?
- ✔ Does it make sense to have bunk beds?
- ✔ Do you want an electric fireplace and/or floor heating?
- ✔ Do you want the washer and dryer mid-cabin or in the back of the coach?
- ✔ How important is it to have an outside kitchen or entertainment center?

Education That is Worth the Investment

No one ever wants to have buyer's remorse. Sadly, we have seen too many people rush into a purchasing decision, sometimes paying \$400,000 to over \$1 million for a luxury motorcoach, only to realize it didn't have enough beds, or it was too difficult to drive, or it simply wasn't a good fit for them.

If you are in the market to purchase a luxury motorcoach, consider chartering one through LiTRV first so you can be confident that you will make an educated, informed decision.
